

CLUBLAND PLAYScheme LIMITED

Non-collection of child policy

Aim

Our aim is to ensure that every child who attends Clubland is collected by an appropriate adult who the child feels happy and secure with and who the staff are satisfied that the person is in a condition to care for the child.

When children are first registered with Clubland, we ask parents/guardians to provide details of the child's personal details such as Child's name, home address, date of Birth and nominate a collection password. In addition, we ask for the parent/carers contact details and an alternative telephone number of someone who we can contact in the event that the parent/guardian cannot collect.

All of this information is stated on the child's registration form and filed in a locked cupboard on site. This information is also stored on Clubland's database which is password protected and only accessed by authorised staff at head office.

Any information told to staff regarding the changes of details to a collection of a child on a temporary basis will be recorded in the diary, for example a child being collected by grandma.

Any information regarding the changes to collection of a child on a permanent basis needs to be given to the supervisor in writing so this can be filed with the child's registration form and the database updated.

If a child is not collected by 10 minutes after the end of a session and no contact has been made with the parent/carer the Supervisor will contact the 'alternative emergency contact person' nominated on the registration form. The Supervisor must start the completion of a 'Non-collection of child record' form, and contact Karen Fitzwater. If after 30 minutes the child remains uncollected and we have not received any communication from the parents/carer the Supervisor will follow the Child Protection
